

IF YOU PLANT IT, THEY WILL COME!

Try This Easy-to-Grow California Native: Red Fairyduster

WESTERN FENCE LIZARD

Favorite food: Insects

Favorite garden plant: Red Fairyduster

Calliandra californica

What do you notice about this lizard?

What do you wonder about this lizard?

What does it remind you of?

See lizards in the garden: All year!

Keen hunting skills make lizards among the garden's greatest pest control force! They eat beetles, ants, caterpillars and flies. They have even been observed hunting insects by climbing up the Fairyduster branches and catching them in flight.
