

# IF YOU PLANT IT, THEY WILL COME!

Try This Easy-to-Grow California Native: Sunflower

Favorite food: Seeds

Favorite garden plant: Sunflower

*Helianthus annuus*

What do you notice about this bird?

What do you wonder about this bird?

What does it remind you of?

This bird is bright yellow in spring. It is one of the only songbirds to **molt**, or lose all its feathers and grow new ones, not once but twice each year – in late winter and late summer. An acrobat, this finch prefers to eat upside down!

**AMERICAN GOLDFINCH**

See them in the garden: All year!
