

# IF YOU PLANT IT, THEY WILL COME!

Try This Easy-to-Grow California Native: **Blue Elderberry**

**Favorite food:** Berries, Insects

**Favorite garden plant:** Elderberry, *Sambucus cerulea*

**WESTERN BLUEBIRD**

**What do you notice about this bird?**

**What do you wonder about this bird?**

**What does it remind you of?**

Male Bluebirds are bright blue with an orange breast. Female are a duller lighter blue. Mated pairs have taken up residence in the garden's nest box the last several years. Look for them swooping down on insects and bringing the catch to their young spring - summer. They raise two *clutches*, or sets of young, per season here.

**See Western Bluebirds in the garden:** All year!
