

# IF YOU PLANT IT, THEY WILL COME!

Try This Easy-to-Grow California Native: **Bladderpod**

**ORANGE-CROWNED  
WARBLER**

**Favorite food:** Nectar, Insects, Some Berries

**Favorite garden plant:** Bladderpod, Peritoma arborea

**What do you notice about this bird?**

**What do you wonder about this bird?**

**What does it remind you of?**

This common little olive-green warbler is always on the go! You'll hear its constant 'Chip!' while consuming insects from trees, and nectar from Bladderpods. The male's orange ***crown*** is rarely seen unless he's angrily defending a nest or territory. Then, bright feathers a top his head stand straight up like the fur on an angry cat.

**See Orange-crowned Warblers in the garden: All year!**
